

COLORFUL PASTA

By Kimberli Washington, Public Information Office

Ingredients:

- 1 lb. dry pasta
- Food Coloring
- Zip lock bags
- Parmesan cheese (garnish)

Directions:

- Cook pasta according to package directions.
- In a zip lock bag, combine 2 tablespoons water and 20 drops of coloring. Repeat for each color you would like to use.
- Transfer cooked pasta in even portions to each zip lock bag with food coloring and seal. Use your hands to combine evenly and let each bag sit for about a minute, so the pasta can fully absorb the color.
- Take one bag at a time to a colander and rinse with cold water to remove excess coloring.
- Toss all pasta together to combine colors. Garnish with parmesan cheese.
- Serve and enjoy!!!
